

2015

INTERNATIONAL SOCIETY FOR
HEPATIC SINUSOIDAL RESEARCH18th International Symposium on Cells of the Hepatic Sinusoid
Asilomar, California, USA | November 11-13, 2015

PRELIMINARY PROGRAM

WEDNESDAY NOVEMBER 11

Evening	1800-1900 Welcome and EVENING SEMINAR 1: IRAKM signaling in ALD and NASH, Xiaoxia Li, USA
	1900-2100 Welcome Dinner and Poster Session

THURSDAY NOVEMBER 12

Morning	0800-0845 MORNING SEMINAR 1: Matrix Stiffness and the Biology of Hepatic Fibrosis, Rebecca Wells, USA
	0900-1015 SESSION 1: Matrix Biology in the Liver
	0900-0930 Tutorial Talk 1: Hyaluronic Acid: From Matrix to Signaling Molecule, Michele Pritchard, USA
	0930-0945 Oral 1: Collagen Fibrillogenesis in Adult Liver Remodeling, Takao Sakai, UK
	0945-1000 Oral 2: Mechanical Forces Drive Fibrogenesis, Vijay Shah, USA
	1000-1015 Oral 3: Selected from submitted abstracts
	1045-1215 SESSION 2: Hepatic Stellate Cells
	1045-1115 Tutorial Talk 2: HSC Activation and Senescence, Waj Mehal, USA
	1115-1130 Oral 4: HSC and Epigenetics
	1130-1145 Oral 5: Targeting Focal Adhesion Kinases for Reversal of Fibrosis, Frank Anania, USA
	1145-1200 Oral 6: Identification of a Novel Bone Marrow Cell-Derived Factor That Accelerates Regeneration of Fibrotic Liver, Yutaka Inagaki, Japan
	1200-1215 Oral 7: Selected from submitted abstracts
Lunch	1215-1315 LUNCH: Meet the Professor
Afternoon	1330-1500 SESSION 3: When the Liver Biologist & Engineers Talk
	1330-1400 Tutorial Talk 3: Tissue Engineering in the Liver, Sangeeta Bhatia, USA
	1400-1415 Oral 8: Bioengineered Hepatic Tissue, Thomas Shupe, USA
	1415-1430 Oral 9: Biliary Tree Modeling, Takuya Sakaguchi, USA
	1430-1445 Oral 10: Multi Scale Modeling of Liver Cell Interactions in Liver Regeneration, Raj Vadigepalli, USA
	1430-1445 Oral 11: Selected from submitted abstracts
	1445-1500 Oral 12: Selected from submitted abstracts
	1530-1730 SESSION 4: Inflammation and Immunity
	1530-1600 Tutorial Talk 4: Neutrophils, Platelets, Interactions in Liver Injury and Repair, Paul Kubes, Canada
	1615-1630 Oral 13: Tolerance and Immunity in the Liver, Percy Knolle, Germany
	1630-1645 Oral 14: Chemokines in Liver Disease, Frank Tacke, Germany
	1645-1700 Oral 15: Selected from submitted abstracts
	1700-1715 Oral 16: Selected from submitted abstracts
	1715-1730 Oral 17: Selected from submitted abstracts
Evening	1830-2030 Dinner and Poster Session

FRIDAY NOVEMBER 13

Morning	0800-0845 MORNING SEMINAR 2: HBV Uses the Macrophage Reverse Cholesterol Transport to Target the Liver, Ulrike Protzer, Germany
	0900-1030 SESSION 5: Genetic, Epigenetic and Post-translational Control
	0900-0930 Tutorial Talk 5: Mitochondrial Protein Acetylation and Acylation Regulates Metabolism: Role in ALD, Matthew Hirschey, USA
	0930-0945 Oral 18: Exosomes: Carriers of microRNAs in Fibrosis, David Brigstock, USA
	0945-1000 Oral 19: Exosomes in Liver Health and Disease, Juan-Manuel Falcon-Perez, Spain
	1000-1015 Oral 20: Final Impact of Post Transcriptional Gene Networks, Aunash Kalsotra, USA
	1015-1030 Oral 21: Selected from submitted abstracts
	1100-1230 SESSION 6: Liver Sinusoidal Endothelial Cells/ Regeneration
	1100-1130 Tutorial Talk 6: LSEC: Master Regulators of Liver Regeneration, Hellmut Augustin, Germany
	1130-1145 Oral 22: Wnt Signaling in LSEC During Regeneration, Paul Monga, USA
	1145-1200 Oral 23: Selected from submitted abstracts
	1200-1215 Oral 24: Selected from submitted abstracts
	1215-1230 Oral 25: Selected from submitted abstracts
Lunch	1230-1245 Acknowledgements and Awards
Afternoon	1330-1800 Optional tour of Monterey Aquarium

SPONSORS
